

Information Privacy Breach, Electronic Data Recovery, and Regulatory Protection

The Doctors Company is fiercely committed to protecting doctors. As the largest national insurer of physician and surgeon medical liability, we identify emerging risks and deliver innovative coverage solutions. As proof of our commitment, we are the first insurer to include cyber liability protection as part of our medical liability coverage.

CyberGuard is aggressive, broad coverage that protects doctors against regulatory and liability claims arising from the theft, loss, or accidental transmission of confidential patient or financial information, as well as the cost of data recovery.

CyberGuard meets the evolving needs of the modern medical practice as it becomes increasingly reliant on technology and electronic data.

Patient Notification and Credit Monitoring Costs Insurance (Up to \$50,000)

Includes all necessary legal, public relations, advertising, and postage expenses incurred by the member to notify patients of a breach of information. Will also pay for credit monitoring for all affected persons.

Network Security and Privacy Insurance (Up to \$50,000)

Includes coverage for both online and offline information, virus attacks and denial of service attacks, identity theft, and more.

CyberGuard eRisk Management Web Site

Provides online access to regulatory compliance guidance, risk reduction resources, sample policies and procedures documents, and information to aid in management of a data breach.

Regulatory Coverage (Up to \$50,000)

Includes coverage for defense of a Red Flags Violation, HIPAA, or any other investigation conducted by a government agency resulting from a privacy breach. Also covers regulatory fines.

Data Recovery Costs Insurance (Up to \$5,000)

Includes all reasonable and necessary sums required to recover or replace data that is compromised, damaged, lost, erased, or corrupted.

To learn more about this coverage, contact your local agent, call The Doctors Company directly at (800) 352-0320, or visit www.thedoctors.com/cyberguard.

CyberGuard is designed for and provided to doctors in solo and small group practices. For our largest groups and institutional customers, custom cyber liability package policies are available. All policy provisions are subject to regulatory and underwriting approval and vary from state to state. You should consult your representative regarding specific policy provisions.
